DETAILED ACTION

1. This Office Action is response to Applicants' communications filed on 06/29/2001.
2. Claims 1-47 are pending in this application.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-17, 22, 23-39, 44, 45, & 47, drawn to indexing data blocks, classified in class 707, subclass 2.
 - II. Claims 18-21, 40-43 and 46, drawn to navigating and plotting the database (matching), classified in class 707, subclass 6.
4. The inventions are distinct, each from the other because of the following reasons:

Inventions in Group I and Group II are related as sub-combinations discloses as usable together in a single combination. The sub-combinations are distinct from each other if they are shown to be separately usable. In the instant case, the invention in Group I has separate utility from invention Group II. Group I related to indexing data

blocks and Group II related to navigating a database and plotting the database based on a content. MPEP 806.05(d)).

5. Because the inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventor-ship must be amended in compliance with 37 CFR 1.48(b) if one or more of currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amended of inventor-ship must be accompanied by a diligently filed petition under CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
